

000-430 IBM certifications I

IBM IBM Tivoli Netcool Service Quality Manager

Practice Exam: 000-430 Exams

Exam Number/Code: 000-430

Exam Name: IBM Tivoli Netcool Service Quality Manager

Questions and Answers: 136 Q&As

([IBM certifications I](#))

Exam : [000-430](#)

"IBM Tivoli Netcool Service Quality Manager", also known as 000-430 exam, is a IBM certification. With the complete collection of questions and answers, TestInside has assembled to take you through 136 Q&As to your 000-430

Exam preparation. In the 000-430 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Quality and Value for the 000-430 Exam TestInside Practice Exams for IBM **IBM certifications I** Certification 000-430 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-430 Exam.

000-430 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the IBM certifications I product experts, included the current newest 000-430 examination questions.

3. 100% Guarantee to Pass Your IBM certifications I exam and get your IBM certifications I Certification.

If you do not pass the IBM Certification 000-430 exam (IBM Tivoli Netcool Service Quality Manager) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 000-430 Q&A ensure you pass the exam at your first try.

TestInside professional provide IBM certifications I 000-430 the newest Q&A, completely covers 000-430 test original topic. With our complete IBM certifications I resources, you will minimize your IBM certifications I cost and be ready to pass your 000-430 tests on Your First Try, 100% Money Back Guarantee included!

[IBM 000-430](#) Test belongs to one of the IBM certifications I certified test, if needs to obtain the IBM certifications I certificate, you also need to participate in other related test, the details you may visit the [IBM certifications I](#) certified topic, in there, you will see all related IBM certifications I certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 000-430 exam

000-430 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-430 exam questions updated on regular basis

Same type as the certification exams, 000-430 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-430 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : IBM 000-430

Title : IBM Tivoli Netcool Service Quality Manager

1. Which two Service Solutions are generally available and supported for IBM Tivoli Netcool Service Quality Manager?

(Choose two.)

- A. Jitter
- B. Delay
- C. IPVPN
- D. Blackberry
- E. Packet Loss

Answer: CD

2. Which software component is a prerequisite to installing the IBM Tivoli Netcool Service Quality Manager core packages on AIX?

- A. Tivoli Data Warehouse
- B. IBM Tivoli Netcool Webtop
- C. Sun Java System Message Queue
- D. an LDAP-compliant Directory Server

Answer: D

3. What are two reasons it is important, in the planning phase, to gather the number of IBM Tivoli Netcool Service Quality Manager users and their required views from the customer? (Choose two.)

- A. The number of IBM Tivoli Netcool Service Quality Manager users and their required views must be encoded by LDAP.
- B. The relation of User and Views will determine the number of IBM Tivoli Netcool Service Quality Manager client installations.
- C. The number of IBM Tivoli Netcool Service Quality Manager users must be inferior to the number of users roles in the planned system.
- D. The number of IBM Tivoli Netcool Service Quality Manager users and their required views is a sizing factor for the IBM Tivoli Netcool Service Quality Manager system.
- E. The number of IBM Tivoli Netcool Service Quality Manager users and their required views is a configuration effort factor for the IBM Tivoli Netcool Service Quality Manager system.

Answer: DE

4. Which question must be asked in the IBM Tivoli Netcool Service Quality Manager planning phase to appropriately architect a solution?

- A. Where will the server(s) be located?
- B. Who are the end users and what are their roles?
- C. What are the data sources and the resource types to be defined?
- D. What are the system administrator username and password requirements?

Answer: C

5. When using the Actions page to set up actions to occur when an SLA enters a new state, various methods of notification are supported.

Which method is supported?

- A. e-mail

- B. text message
- C. Syslog notification
- D. paging notification

Answer: A

6. Which two operating systems are supported for IBM Tivoli Netcool Service Quality Manager server installation? (Choose two.)

- A. IBM AIX
- B. SuSe Linux
- C. Red Hat Linux
- D. Sun Solaris (SPARC)
- E. Windows operating system

Answer: AD

7. How is detailed debug information for Customer Experience Manager (CEM) core processes obtained?

- A. by editing startup files and rebooting CEM platform
- B. by editing WebSphere configuration files to generate debug information
- C. by using logging command to enable detailed CEM debug information
- D. by configuring Oracle-stored procedures to generate debug information

Answer: C

8. Which Service Solution is generally available and supported for IBM Tivoli Netcool Service Quality Manager?

- A. IPTV
- B. Mobile User Throughput
- C. Mobile Handset Failures
- D. Trouble Ticketing Status

Answer: A

9. Which action is taken if it is determined that a Service Solution for the required KPIs/KQIs is not available?

- A. provide a solution that contains available Service Solutions
- B. remove those KPIs/KQIs from scope and inform the customer
- C. halt the project until an applicable Service Solution is available
- D. identify and document those KPIs/KQIs and allow for a customized solution

Answer: D

10. In which three states can an SLA clause be? (Choose three.)

- A. Clear
- B. Warning
- C. Unknown
- D. Breached
- E. Indeterminate
- F. Compromised

Answer: ABE

11. Using the Services Resources application capabilities, which two resource options can be defined and maintained? (Choose two.)

- A. Network Systems
- B. Resource Groups
- C. Network Elements
- D. SLA Device Inventory
- E. Repository of Resources

Answer: BE

12. Why is it important, in the planning phase, to gather the number of IBM Tivoli Netcool Service Quality Manager users and their required views from the customer?

- A. The number of IBM Tivoli Netcool Service Quality Manager users and their required views must be encoded by LDAP.
- B. The relation of User and Views will determine the number of IBM Tivoli Netcool Service Quality Manager client installations.
- C. The number of IBM Tivoli Netcool Service Quality Manager users must be inferior to the number of users roles in the planned system.
- D. The number of IBM Tivoli Netcool Service Quality Manager users and their required views is a configuration effort factor for the IBM Tivoli Netcool Service Quality Manager system.

Answer: D

13. When planning an IBM Tivoli Netcool Service Quality Manager deployment, which two questions must be asked to architect a solution? (Choose two.)

- A. Who are the end users?
- B. What are the data sources?
- C. Which services will be monitored?
- D. Where will the server(s) be located?
- E. What is the customer's definition of a KQI?

Answer: BC

14. In the planning stage of an installation, why is it necessary to identify the data source types, count, expected data intervals, and file sizes?

- A. determining system sizing
- B. determining database type
- C. determining hardware type
- D. determining Service Solutions

Answer: A

15. When combining a number of resource types in a calculation, which type of resource is used?

- A. logical
- B. regular
- C. composite
- D. hierarchical

Answer: C

16. Which customer requirements are needed to determine the Service Solutions that could be applied to the customer solution?

- A. documented inventory of resources to be monitored for each service
- B. services to be monitored and the KQIs and KPIs for each of those services
- C. services to be monitored and the SLA requirements for each of those services
- D. number of services to be monitored and the expected data volume per service

Answer: B

17. Upon the completion of a new installation of IBM Tivoli Netcool Service Quality Manager, which action must be taken to add new user accounts?

- A. create Oracle and saserver accounts
- B. define the new user in the Oracle database
- C. install the IBM Tivoli Netcool Service Quality Manager client and log in to the Application Discoverer Window
- D. install the IBM Tivoli Netcool Service Quality Manager client and discover the IBM Tivoli Netcool Service Quality Manager server

Answer: D

18. Which customer requirements are needed to determine the Service Solutions to be applied?

- A. services to be monitored and the volume of data for each service
- B. services to be monitored and the network architecture requirements
- C. services to be monitored and the KQIs and KPIs for each of those services
- D. data source connection and accessibility information for those data sources

Answer: C

19. Which information is needed to determine SLAs and SLOs?

- A. customer requirements for end user interface
- B. database sizing estimates per required Service Solution and the metrics available from the data source
- C. customer requirements for the data source connectivity for the service and the data source documentation
- D. services to be monitored and the IBM Tivoli Netcool Service Quality Manager Service Solution documentation

Answer: D

20. Which two operating systems are supported for IBM Tivoli Netcool Service Quality Manager server installation?

(Choose two.)

- A. HP UX
- B. IBM AIX
- C. Windows XP
- D. Sun Solaris (x86)
- E. Sun Solaris (SPARC)

Answer: BE
