IBM IBM eSERVER iSERIES TECHNICAL SOLUTIONS DESIGN V5R2

Practice Exam: 000-445 Exams

Exam Number/Code: 000-445

Exam Name: IBM eSERVER iSERIES TECHNICAL SOLUTIONS DESIGN V5R2

Questions and Answers: 124 Q&As

([IBM certifications II](#))

Exam : [000-445](#)

"IBM eSERVER iSERIES TECHNICAL SOLUTIONS DESIGN V5R2", also known as 000-445 exam, is a IBM certification. With the complete collection of questions and answers, TestInside has assembled to take you through 124 Q&As to your 000-445 Exam preparation. In the 000-445 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Quality and Value for the 000-445 Exam TestInside Practice Exams for IBM **IBM certifications II** Certification 000-445 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-445 Exam.

000-445 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the IBM certifications II product experts, included the current newest 000-445 examination questions.

3. 100% Guarantee to Pass Your IBM certifications II exam and get your IBM certifications II Certification.

If you do not pass the IBM Certification 000-445 exam (IBM eSERVER iSERIES TECHNICAL SOLUTIONS DESIGN V5R2) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 000-445 Q&A ensure you pass the exam at your first try.

TestInside professional provide IBM certifications II 000-445 the newest Q&A, completely covers 000-445 test original topic. With our complete IBM certifications II resources, you will minimize your IBM certifications II cost and be ready to pass your 000-445 tests on Your First Try, 100% Money Back Guarantee included!

[IBM 000-445](#) Test belongs to one of the IBM certifications II certified test, if needs to obtain the IBM certifications II certificate, you also need to participate in other related test, the details you may visit the [IBM certifications II](#) certified topic, in there, you will see all related IBM certifications II certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 000-445 exam

000-445 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-445 exam questions updated on regular basis

Same type as the certification exams, 000-445 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Exam : IBM 000-445

Title : IBM Certified System Administrator - Document Manager

1. The System Administrator can configure datastore pooling to improve the overall performance of a DB2 Document Manager system. How does datastore pooling improve performance?

- A. It allows the specification of a department-level cache server that is used to "pool" document data that is local to that department.
- B. It allows the administrator to specify allocation of pools of memory that can be shared by different item types in the repository.
- C. It reduces the overhead associated with opening a new connection each time a request is issued by a user by reusing cached datastores.
- D. It retains a database connection for each user of the system for a period of hours as defined in the DdmConnCfg.ini file.

Answer: C

2. Item types that are defined to store dynamic folders should have which item type classification?

- A. Item or Resource
- B. Document or Resource
- C. Document Part
- D. Document Item

Answer: A

3. If the Name field of the properties of a Cache Service does not equal a LibraryName value in ddmcasrv.ini, what happens to the Document Manager Desktop when an attempt to log on is made?

- A. The Document Manager Desktop will fail to connect to the selected library and return an error.
- B. The Document Manager Desktop will succeed in connecting to the selected library.
- C. The Document Manager Desktop will hang until a predetermined timeout value is reached.
- D. The Document Manager Desktop will succeed in connecting to the selected library with degraded performance.

Answer: A

4. Which of the following statements concerning a configured property exchange is correct?

- A. A "Write mode" of "Update library only" will update the specified library property in the system with the item's property tag value during an "Check-in" action.
- B. A "Write mode" of "Update library only" will update the specified item property tag with the library property value during a "Check-out" action.
- C. A "Write mode" of "Update both" will update the specified library property in the system with the item's property tag value during an "Modify" action.
- D. A "Write mode" of "Off" prevents the property exchange from processing unless the "Operator" has been set to "Clear" in the property exchange configuration.

Answer: A

5. A company extensively uses the file properties when Microsoft Word documents are created. They have a requirement to store the file properties in the library and reflect any changes to those file properties when a document

is checked out and launched in Word. How can this be achieved in Document Manager?

- A. Create a bi-directional library property.
- B. Use a new item template to define property values.
- C. Use property exchange with Write mode of Update both.
- D. Use property modification with Update mode of Automatic.

Answer: C

6. A controlled vocabulary list (CVL) can be generated dynamically from all of the following types of data in the library except one. Which is NOT a valid type?

- A. A DM Configuration list such as a list of document classes or document states
- B. A user or a Group List of Content Manager groups
- C. An Item Property list that is created from a saved search
- D. A Standard list of items retrieved from a file during runtime

Answer: D

7. Prior to installing Document Manager servers, the PATH system environment variable should include which of the following?

- A. Information Integrator C++ Connector DLL directory
- B. %IBMCMROOT%cmgmt directory
- C. Information Integrator installation directory
- D. Information Integrator Java Connector directory

Answer: A

8. Which of the following commands can be used to determine the currently installed version of IBM Information Integrator for Content?

- A. cmlevel
- B. dmlevel
- C. db2level
- D. ii4clevel

Answer: A

9. Assuming standard naming conventions, which metadata information is required, in Document Manager's Library Configuration, to work with data in the library?

- A. Class and Revision
- B. Class and State
- C. Revision and Properties
- D. State and Revision

Answer: B

10. When installing the Document Manager Server for the first time, which two managers are installed by default (Choose TWO)?

- A. Cache Manager
- B. Lifecycle Manager
- C. Rendition Manager
- D. Print/Plot Manager
- E. Notification Manager

Answer: AB

11. What is the method by which the Lifecycle Services can be configured to process ONLY specified classes?

- A. Configure a role that applies to only the classes that need to be processed.
- B. Select the "Enable Processing" toggle in the Document Class definition for the classes that need to be processed.
- C. Select the "Advanced" button within the Lifecycle Service Configuration and enable the classes that need to be processed.

D. Lifecycle Services cannot be configured to process specific classes. When Lifecycle Service runs, it processes documents from ALL classes.

Answer: C

12. By which of the following methods can Document Manager services be configured to utilize DM Cache?

A. Configure the "GPSLibraryServerMachine=" parameter in the ddmcasrv.ini with the machine name of the Document Manager Cache Server.

B. Configure the "CacheServer=" parameter in the ddmstktp.htm file to include the machine name of the Document Manager Cache Server.

C. Configure the "CacheServer=" parameter in the default.htm file to include the machine name of the Document Manager Cache Server.

D. Configure the "Cache Server" field in the Service Properties dialog for each specified Document Manager service with the machine name of the Document Manager Cache Server.

Answer: D

13. Which application must be used by DM to create a thumbnail rendition from a CAD file?

A. Cimmetry AutoVue

B. AutoDesk AutoCAD

C. Bentley MicroStation

D. Informatative Graphics MYRIAD

Answer: A

14. Which of the following is a valid step or factor in configuring the "Item Delivery" tab of a Desktop Template?

A. Set the full path name of the desktop compression utility in the text field associated with the "Use data compression on upload of item" checkbox.

B. Check the "Enable (Select Path Location) dialog" if you want to override the system default of delivering items to the My Documents folder on the user's machine.

C. If "Clear view temp on library exit" is set, then specify a file path name in the Path field for the view path (such as C:DDMView) that is different from the copy or checkout paths (because the contents of the view path are deleted by the system).

D. Make sure that the file path name in the Path field for the view path (such as C:Program FilesAdobeAcrobat 7.0Temp) matches the path for the temporary files created by the third-party viewer specified for the Desktop.

Answer: C

15. Which INI file must be configured after the Document Manager Server is installed?

A. ddmconncfg.ini

B. ddmcache.ini

C. ddmcfgsv.ini

D. ddmcasrv.ini

Answer: D

16. When configuring Designer to connect to a library, the Name field in the Library Configuration must match the LibraryName in which file?

A. ddsmstp.ini

B. ddmcasrv.ini

C. ddmcfgsv.ini

D. ddmlogconfig.properties

Answer: B

17. What is the consequence of leaving GPSLibraryServerCacheMachine blank in ddmcasrv.ini?

A. The cache service will not run.

B. The cache service will run but cannot log into Content Manager.

C. The Document Manager desktop connection will fail with return code -2143832

D. If blank, DM will look for a Cache Server on the same machine as the Library Server. If there is no local cache server on that Library Server DM will use the client's cache server

Answer: D

18. In order to conduct a web based install of the Document Manager Desktop, which of the following files must be copied to the web server directory?

- A. ddminst.htm, ddmsktp.cab, ddmsktp.js, index.htm, default.htm
- B. ddmsktp.htm, ddmsktp.cab, ddmsktp.js, index.htm, default.htm
- C. ddminst.htm, ddmsktp.htm, ddmsktp.cab, ddmsktp.js, default.htm
- D. ddmsktp.htm, ddmcasrv.ini, ddmsktp.cab, ddmsktp.js, default.htm

Answer: C

19. Which two DM Services are used in combination to execute jobs from Automation Services?

- A. Cache Service and Automation Services
- B. Alarm Manager and Automation Services
- C. Cache Service and Lifecycle Services
- D. Lifecycle Services and Automation Services

Answer: B

20. In Document Manager, the name of the user identity that is configured to send e-mail notifications is:

- A. extracted from the "Created-by" library property of the item entering a state that has the related notification.
- B. generally set to one of the Content Manager administrator users (icmadmin or ddm-service).
- C. defined in the DdmSmtp.ini file.
- D. defined in the Designer as an administrator under the folder "Administrators" --> "Users".

Answer: C

21. In addition to a user name, password, and DM Library Server name, which additional item is required for the Designer to login to the library?

- A. The Content Manager machine name.
- B. A user with the SysAdminCM privilege set.
- C. The Content Manager database name.
- D. SOAP information if the server is not behind a firewall.

Answer: C

22. In the Quick Declare dialog, the user is presented with a list of file plan locations and associated record types to choose from. Which Quick Declare method is being used?

- A. Selection
- B. By Property
- C. User's Choice
- D. Auto Classification

Answer: A

23. Which configuration object(s) are users and groups directly assigned to in the Document Manager Designer?

- A. Menus
- B. States
- C. Action and Dialogs
- D. Searches

Answer: C

24. Which of the following is a capability of the item loader?

- A. It can scan a file system and add new or modified files to the repository.
- B. It can monitor a folder and add new or modified files to the repository.
- C. It can add specified documents to the repository.

D. It can process an XML file - adding specified documents and associated attributes to the repository.

Answer: C

25. A company wants the capability to add a document to a library and automatically create a folder to contain the document. The name of the folder will be based on the document's attributes. How can this be achieved in Document Manager?

A. Use an Add dialog with the Add to folder option.

B. Add a document into a stateless class with associated folders.

C. Add a document into a controlled class, whose initial state creates a folder.

D. Add a document into a controlled class which initiates an automated process to create the folder structure.

Answer: C

26. Document Manager can automatically create an accompanying PDF when a document is declared as a record. When is this option specified?

A. When configuring a class for Auto quick declare

B. When configuring a class for Selection quick declare

C. When configuring the destination configuration of the PDF rendition

D. When configuring an item type

Answer: B

27. The system administrator must create or otherwise utilize an appropriately configured "search" class to enable a system to support saved searches. Given this, which one of the following statements is true?

A. The search class must be a controlled class.

B. The search class must be a stateless class.

C. The item type with which the class for saved searches is associated must be either a Document or a Resource item because a text file is created to contain the search criteria.

D. The item type with which the class for saved searches is associated must be an "Item" item type because the saved search is a "document-less" structure.

Answer: C

28. A company's business rules require that all documents be automatically declared as records when transitioned to the Issued state. How can this be implemented in Document Manager?

A. Create an auto classify rule.

B. Add the Quick Declare command to a menu.

C. Configure the Issued state to declare an item of record.

D. Configure the Lifecycle map to allow declaration of records.

Answer: C

29. Which of the following four objects is NOT assigned to a document state?

A. Roles

B. Notifications

C. Property exchange

D. Property modifications

Answer: C

30. Which commands are provided by Document Manager for interacting with Content Manager processes?

A. Select Route, Manage Routes, and Define Route

B. Select Route, Manage Routes, and Continue

C. Select Route and Continue

D. Select Route, List Work, and Continue

Answer: A
