IBM IBM Tivoli Storage Manager Express V5.3.7

Practice Exam: 000-885 Exams

Exam Number/Code: 000-885

Exam Name: IBM Tivoli Storage Manager Express V5.3.7

Questions and Answers: 91 Q&As

([IBM certifications II](#))

Exam : [000-885](#)

"IBM Tivoli Storage Manager Express V5.3.7", also known as 000-885 exam, is a IBM certification. With the complete collection of questions and answers, TestInside has assembled to take you through 91 Q&As to your 000-885

Exam preparation. In the 000-885 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Quality and Value for the 000-885 Exam TestInside Practice Exams for IBM **IBM certifications II** Certification 000-885 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-885 Exam.

000-885 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the IBM certifications II product experts, included the current newest 000-885 examination questions.

3. 100% Guarantee to Pass Your IBM certifications II exam and get your IBM certifications II Certification.

If you do not pass the IBM Certification 000-885 exam (IBM Tivoli Storage Manager Express V5.3.7) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 000-885 Q&A ensure you pass the exam at your first try.

TestInside professional provide IBM certifications II 000-885 the newest Q&A, completely covers 000-885 test original topic. With our complete IBM certifications II resources, you will minimize your IBM certifications II cost and be ready to pass your 000-885 tests on Your First Try, 100% Money Back Guarantee included!

[IBM 000-885](#) Test belongs to one of the IBM certifications II certified test, if needs to obtain the IBM certifications II certificate, you also need to participate in other related test, the details you may visit the [IBM certifications II](#) certified topic, in there, you will see all related IBM certifications II certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 000-885 exam

000-885 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-885 exam questions updated on regular basis

Same type as the certification exams, 000-885 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-885 exam demo before you decide to buy it in Test-Inside.com.

Exam : IBM 000-885

Title : IBM Tivoli Storage Manager Express V5.3.7

1. What is a Grandfather/Father/Son tape rotation?

A.a tape media rotation where daily backups become the Son, weekly backups become the Father, and monthly backups become the Grandfather

B.a tape media rotation where after three days of daily backups, the oldest backup becomes the Grandfather, the backup from two work days ago becomes the Father, and today's backup becomes the Son

C.a tape media rotation where after three weeks of weekly backups, the oldest backup becomes the Grandfather, the backup from two weeks ago becomes the Father, and this weeks backup becomes the Son

D.a tape media rotation where after three months of monthly backups, the oldest backup becomes the Grandfather, the backup from two months ago becomes the Father, and this months backup becomes the Son

Answer: A

2. What problem will result if port 1500 is in use on the servers on which IBM Tivoli Storage Manager Express V5.3.7 Backup Clients are to be installed?

A.inability to back up clients

B.inability to connect to a web client

C.inability to connect to a server Administrative Interface on the web port

D.inability to connect to a server Administrative Interface on the secure port

Answer: A

3. Click the Exhibit button.

You are an IBM Tivoli Storage Manager Express V5.3.7 (TSM Express) consultant. Your client is a marketing company that is about to open two new offices in different parts of the country.

The IT Manager wants you identify the number of TSM Express servers the company needs and where they should be located. The company has a TSM Express administrator at the head office. There are ten servers to be backed up at the head office, seven at the southern office, and none at the northern office.

What is your recommendation concerning the optimal number of TSM Express server(s) that are needed and where they should be located?

A.one TSM Express server at the head office

B.one TSM Express server at the northern office

C.one TSM Express servers at the southern office

D.two TSM Express servers at the southern office

Answer: A

4. What is the first step in planning an IBM Tivoli Storage Manager Express V5.3.7 (TSM Express) implementation?

A.develop a deployment architecture

B.install TSM Express in a test environment

C.document the customers back-up requirements

D.determine physical hardware requirements for TSM Express server hardware

Answer: C

5. A customer has 200 GB of storage in their environment and experiences a 10% daily change rate.

What additional information is needed in order to determine the number of tapes required each week to store the weekly media copies?

- A.the number of tape drives available
- B.the capacity of the tapes being used
- C.the number of computers being backed up
- D.the number of applications being backed up

Answer: B

6. Within the IBM Tivoli Storage Manager Express server interface, where would the storage administrator go to modify an existing administrators e-mail address for sending status reports?

- A.My Work Automatic Backups General
- B.My Work Backup Server Settings General
- C.My Work Automatic Backups Administrators
- D.My Work Backup Server Settings Administrators

Answer: D

7. There are five servers configured with operating systems and web browsers.

Which two operating system and browser combinations are supported by IBM Tivoli Storage Manager Express V5.3.7? (Choose two.)

- A.Windows 2003 with Netscape 8.1
- B.Windows 2003 with Mozilla Firefox 1.5
- C.Windows 2003 with Internet Explorer 6.0
- D.Windows 2000 Server with Mozilla Firefox 1.5
- E.Windows 2000 Server with Internet Explorer 5.0

Answer: BC

8. Which is the minimum hardware configuration required to run an IBM Tivoli Storage Manager Express V5.3.7 client?

- A.Windows Me, single processor, 64 MB, 80 MB disk space
- B.Windows XP, 2000 or 2003, multi processor, 512 MB memory, 40 MB disk space
- C.Windows XP, 2000 or 2003, single processor, 128 MB memory, 85 MB disk space
- D.Windows XP, 2000 or 2003, single processor, 128 MB memory, 160 MB disk space

Answer: C

9. A customer has 200 GB of storage in their environment and experiences a 20% daily change rate. They are using 4mm tape drives with 4 GB native and 8 GB compressed capacity.

What are the minimum resources needed to perform each daily incremental backup?

- A.ten 4mm tapes only
- B.40 GB of hard disk space only
- C.40 GB of hard disk space plus five 4mm tapes
- D.80 GB of hard disk space plus ten 4mm tapes

Answer: B

10. Which media copy contains only image and application data?

- A.daily media copy
- B.weekly media copy
- C.monthly media copy
- D.long-term media copy

Answer: A

11. Which method is used when a media copy has expired but is still needed if the tapes have not been overwritten and are available?

- A.reintroduce the media copy
- B.extend the expiration of the media copy to a future date
- C.use the client GUI to do a local restore without the server

D.make a duplicate of the media and set the expiration date to the future

Answer: A

12. While adding a new computer to IBM Tivoli Storage Manager Express V5.7 (TSM Express), you have an automatic client deployment failure.

What is the first step that should be taken to determine the cause of the failure?

A.call Tivoli technical support

B.review the install.log file located in the client computer's install directory

C.open the TSM Express client_push_logs directory and review the deploy.log file

D.click the View Deployment Logs link on the Computers and Applications panel and review the logs for any computers that show a status of failed

Answer: D

13. A small law firm has 15 Microsoft Windows servers in a single office location. The law firms administrator is preparing to install IBM Tivoli Storage Manager Express V5.3.7 (TSM Express) 32-bit Edition.

On which servers can TSM Express server be installed?

A.Windows 2000 Server

B.Windows 2000 Enterprise Server

C.Windows NT 4.0 Service Pack 6a

D.Windows Server 2003 Standard Edition

Answer: D

14. You need to deploy 20 IBM Tivoli Storage Manager Express V5.3.7 (TSM Express) clients in a very short period of time to subnet 178.10.10.0 and 178.10.11.0. Both subnets are on your local site.

What is the best way to do this?

A.copy installation CDs to each computer

B.copy client MSI packages to each computer

C.run installation CDs directly on each computer

D.use TSM Express remote deployment for each computer

Answer: D

15. Click the Exhibit button.

You are an IBM Tivoli Storage Manager Express V5.3.7 consultant (TSM Express). Your client is a marketing company that is about to open two new offices in different parts of the country. The IT Manager wants you to determine the number of TSM Express servers they need and where they should be located.

One technician is hired who is familiar with backup systems for the northern office location to complement the existing TSM Express administrator at the head office.

There are 45 servers to be backed up at the head office, seven at the southern office, and seven at the northern office.

Which two recommendations should you make concerning the optimal number of TSM Express server(s) that are needed and where they should be located? (Choose two.)

A.one TSM Express server at the head office

B.two TSM Express servers at the head office

C.one TSM Express server at the northern office

D.one TSM Express server at the southern office

E.two TSM Express servers at the southern office

Answer: BC

16. A list of ports in use indicates that ports 1500, 1530 and 1583 are being used by an anti-virus system that is installed on the server. The company policy is that each server must have anti-virus installed.

What must you do to successfully install IBM Tivoli Storage Manager Express V5.3.7 (TSM Express)?

A.install TSM Express with defaults

B.uninstall the anti-virus application and then install TSM Express

C.document three free ports ready for installation and uninstall the anti-virus application

D.document three free ports ready for installation and leave the anti-virus application installed

Answer: D

17. A customer has 2 TB of storage in its environment. The customer experiences a 15% daily change rate. They are using LTO tape drives with 200 GB native and 400 GB compressed capacity.

What are the minimum resources needed to perform each daily incremental backup?

A.2 LTO tapes only

B.300 GB of hard disk space only

C.300 GB of hard disk space plus 1 LTO tape

D.600 GB of hard disk space plus 1 LTO tape

Answer: B

18. A prospective environment contains the following systems that need to be backed up by an IBM Tivoli Storage Manager Express V5.3.7 (TSM Express) server:

20 Microsoft Windows XP clients

20 Microsoft Windows 2003 Servers

five Microsoft Windows 2003 Servers 64-bit.

A Microsoft SQL application is running on one of the Windows 2003 Servers and Microsoft Exchange Mail Server is running on another.

How many TSM Express Backup Clients for computers and applications are needed to back-up this configuration?

A.25

B.27

C.45

D.47

Answer: D

19. The daily/weekly/monthly media copy feature of IBM Tivoli Storage Manager Express V5.3.7 can be used as a simulated Grandfather/Father/Son tape media rotation.

What is the default expiration of the daily media copy?

A.1 day

B.5 days

C.7 days

D.14 days

Answer: C

20. A company is evaluating IBM Tivoli Storage Manager Express V3.7 as a possible solution for their backup and restore problems.

Which three factors should a consultant be aware of when documenting and recommending an architecture to the customer? (Choose three.)

A.the applications to be protected

B.number of files to be backed up daily

C.number of versions of files to be kept

D.amount of data being backed up daily

E.number of clients that need to be deployed

F.complexity of the directory structure on the client

Answer: ADE
