

## **000-923 IBM certifications II IBM Netcool/Precision IP V3.6**

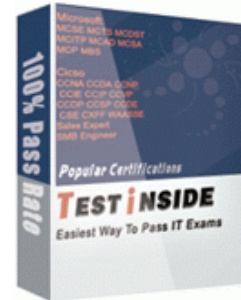

**Practice Exam:** 000-923 Exams

**Exam Number/Code:** 000-923

**Exam Name:** Netcool/Precision IP V3.6

**Questions and Answers:** 146 Q&As

( [IBM certifications II](#) )

Exam : [000-923](#)

"Netcool/Precision IP V3.6", also known as 000-923 exam, is a IBM certification. With the complete collection of questions and answers, TestInside has assembled to take you through 146 Q&As to your 000-923 Exam preparation. In the 000-923 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Quality and Value for the 000-923 Exam TestInside Practice Exams for IBM **IBM certifications II** Certification 000-923 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

### ***TestInside provide the professional Q&A.***

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-923 Exam.

000-923 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the IBM certifications II product experts, included the current newest 000-923 examination questions.

3. 100% Guarantee to Pass Your IBM certifications II exam and get your IBM certifications II Certification.

If you do not pass the IBM Certification 000-923 exam (Netcool/Precision IP V3.6) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

### ***use TestInside 000-923 Q&A ensure you pass the exam at your first try.***

TestInside professional provide IBM certifications II 000-923 the newest Q&A, completely covers 000-923 test original topic. With our complete IBM certifications II resources, you will minimize your IBM certifications II cost and be ready to pass your 000-923 tests on Your First Try, 100% Money Back Guarantee included!

[IBM 000-923](#) Test belongs to one of the IBM certifications II certified test, if needs to obtain the IBM certifications II certificate, you also need to participate in other related test, the details you may visit the [IBM certifications II](#) certified topic, in there, you will see all related IBM certifications II certified subject of examination.

### ***TestInside Testing Engine Features***

Comprehensive questions and answers about 000-923 exam

000-923 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-923 exam questions updated on regular basis

Same type as the certification exams, 000-923 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-923 exam demo before you decide to buy it in Test-Inside.com.

Exam : IBM 000-923

Title : Netcool/Precision IP V3.6

1. In Windows, which web browser is officially supported by Netcool/Precision IP v3.6?

- A. Netscape 4.0.8
- B. Mozilla Firefox 1.4
- C. Microsoft Internet Explorer 6.0 with Microsoft security updates
- D. Microsoft Internet Explorer 7.0 with Microsoft security updates

Answer: C

2. Which command displays the full Netcool Security Manager version information?

- A. nscsm\_db
- B. ncisetup
- C. nscsm\_version
- D. ncisecurity -version

Answer: B

3. What are two valid seed file entries for use with a File Finder Discovery configuration? (Choose two.)

- A. 192.168.0.\*:Network1
- B. Router1 192.168.0.10
- C. 192.168.0.10;Router1
- D. 192.168.0.1-254,Network1
- E. 192.168.0.10-16:Router1 interfaces

Answer: BC

4. On a UNIX server with Netcool/Precision IP v3.6 (Precision), in which file would the administrator comment out the ncp\_ncogate insert to ensure the gateway does not start up when Precision starts up?

- A. CtrlServices.cfg
- B. NcoGateway.cfg
- C. NcoGateInsert.cfg
- D. NcoGateSchema.cfg

Answer: A

5. Click the Exhibit button.

Which two lines in the exhibit need to be modified so that the Rendezvous bus runs on port 7700 from 7500? (Choose two.)

- A. rva
- B. service
- C. network
- D. daemon
- E. add a line 'port' = '7700'

Answer: BD

6. Which environment variable needs to be configured before starting a Netcool/Precision IP v3.6 installation on UNIX?

- A. \$NCHOME
- B. %NCHOME%

- C.\$OMNIHOME
- D.\$PRECISION\_HOME

Answer: A

7. What network information must be obtained to plan configuration of Netcool/Precision IP v3.6 scoped discovery?

- A.gather subnet/netmask information
- B.gather CPU utilization for network devices
- C.obtain system locations of network devices
- D.gather bandwidth utilization for network edge routers

Answer: A

8. What must be done prior to the installation of Netcool/Precision IP v3.6 (Precision)?

- A.obtain geographic location of all network devices
- B.obtain Precision server root level access or equivalent
- C.gather list of network devices that provide syslog messages
- D.gather list of network devices that do not provide SNMP access

Answer: B

9. You have installed Netcool/Precision IP v3.6 (Precision).

In which file can you verify the ObjectServer name that the Precision Gateway will use for connection?

- A.precision.properties
- B.CtrlServices..cfg
- C.ServiceData..cfg
- D.NcoGateSchema..cfg

Answer: B

10. Which three operating systems are officially supported for Netcool/Precision IP 3.6? (Choose three.)

- A.AIX 5.3
- B.SLES 9
- C.Solaris 9
- D.HP-UX 11
- E.Redhat Linux 3.0
- F.Windows 2000 Server

Answer: ACE

11. Which two are possible reasons that a discovered device has the m\_HaveAccess field with a value of 0 in the DISCO database tables? (Choose two.)

- A.The device does not support SNMP.
- B.A name could not be resolved for the device.
- C.The device is not responding on the default telnet port.
- D.The device is on a network excluded from the scopes defined within Netcool/Precision IP v3.6.
- E.The SNMP Community Strings configured in Netcool/Precision IP v3.6 are not valid for that device.

Answer: AE

12. You have to install Netcool/Precision IP v3.6 remotely as a non-root user.

Which command do you use to start a non-GUI installation?

- A../SETUP -console
- B../INSTALL -errorlevel 4
- C../INSTALL -errorlevel debug
- D../INSTALL -console -errorlevel info

Answer: D

13. Which table in theDiscoSchema.cfg file contains m\_UselName that causes interfaces to be named with

ifName/ifDescr?

- A.disco.config
- B.disco.status
- C.disco.helper
- D.disco.naming

Answer: A

14. For what is the Inter-Ping Time setting used?

- A.the time of the ping burst
- B.the time waited between pings
- C.the time to wait between retries for a given address
- D.the time to wait before considering a ping fail response

Answer: B

15. Which variable should be configured prior to installation of Netcool/Precision IP v3.6 on Windows?

- A.\$NCHOME
- B.%NCHOME%
- C.%OMNIHOME%
- D.\$PRECISION\_HOME

Answer: B

16. What must be done to prepare for a Netcool/Precision IP v3.6 installation?

- A.change the Username of the Administrative User to "netcool"
- B.restore the Default Security Settings for Netcool GUI Foundation
- C.manually run a new provisioning script for Netcool GUI Foundation
- D.gather details for required architecture (servers, database, failover, sizing)

Answer: D
