Exam : [646-563](#)

"Advanced Security for Account Managers Exam", also known as 646-563 exam, is a Cisco certification. With the complete collection of questions and answers, TestInside has assembled to take you through 61 Q&As to your 646-563 Exam preparation. In the 646-563 exam resources, you will cover every field and category in Cisco Certification helping to ready you for your successful Cisco Certification.

Quality and Value for the 646-563 Exam TestInside Practice Exams for Cisco **Others** Certification 646-563 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 646-563 Exam.

646-563 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Others product experts, included the current newest 646-563 examination questions.

3. 100% Guarantee to Pass Your Others exam and get your Others Certification.

If you do not pass the Cisco Certification 646-563 exam (Advanced Security for Account Managers Exam) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 646-563 Q&A ensure you pass the exam at your first try.

TestInside professional provide Others 646-563 the newest Q&A, completely covers 646-563 test original topic. With our complete Others resources, you will minimize your Others cost and be ready to pass your 646-563 tests on Your First Try, 100% Money Back Guarantee included!

[Cisco 646-563](#) Test belongs to one of the Others certified test, if needs to obtain the Others certificate, you also need to participate in other related test, the details you may visit the [Others](#) certified topic, in there, you will see all related Others certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 646-563 exam

646-563 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

646-563 exam questions updated on regular basis

Same type as the certification exams, 646-563 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 646-563 exam demo before you decide to buy it in Test-Inside.com.

Exam : Cisco 646-563

Title : ASAM Advanced Security for Account Managers Exam

1. How does the Cisco SDN relate to compliance?

- A. It addresses a large majority of PCI requirements.
- B. It uses anomaly detection to secure a device.
- C. It is point product-based.
- D. It uses IP protocol 50 (ESP) to securely communicate to network devices.

Answer: A

2. Which scenario illustrates a breach in security integrity?

- A. A system upgrade slows the network down and prevents employees from accessing data.
- B. Service is disrupted due to a power outage.
- C. An unauthorized party obtains a credit card number.
- D. Someone is able to cast a large number of votes in an online poll.

Answer: D

3. During the optimize phase, how can the account manager help the customer reach operational excellence?

- A. by enabling ongoing improvement of system performance and functionality
- B. by evaluating the solution against competitor performance
- C. by making recommendations for integration of the security solution
- D. by defining project milestones

Answer: A

4. Which government regulation was designed to restore investor confidence in the financial reporting of public companies?

- A. Basel II
- B. PCI
- C. SOX Act
- D. GLBA

Answer: C

5. How is the Cisco SDN strategy collaborative?

- A. Firewalling, VPNs, and trust capabilities are used.
- B. Security features allow for communication between endpoints, network elements, and policy enforcement.
- C. Behavioral methods are deployed to automatically recognize new types of threats as they arise.
- D. Security technologies are distributed to every part of the network.

Answer: B

6. How does preliminary technical discovery benefit the customer?

- A. Information regarding an existing customer network is analyzed, which allows an appropriate solution to be developed.
- B. Detailed technical requirements are defined and documented.
- C. A technology strategy is presented to the customer.
- D. The account team analyzes and validates the business requirements.

Answer: A

7. A company believes that buying and installing a firewall can solve their security problems. What reason for insufficient security is this customer illustrating?

- A. risk analysis
- B. lack of perceived risk
- C. quantifying risks
- D. quickly evolving networks and applications

Answer: B

8. When selling secure WAN, which two of these statements can you use to promote the Cisco solution over that of Juniper? (Choose two.)

- A. Juniper lacks voice integration in their routers.
- B. Juniper provides point products.
- C. Cisco supplies end-to-end security solutions.
- D. Juniper can only effectively tackle enterprise customers.
- E. Juniper purchased NetScreen Technologies to enhance secure WAN solutions.

Answer: AC

- A. PCI
- B. SOX Act
- C. HIPPA
- D. Basel II

Answer: A

10. Which two of these activities does the risk analysis process include? (Choose two.)

- A. Determine the potential for each type of threat.
- B. Identify potential threats.
- C. Determine the impact on business.
- D. Prioritize security needs due to cost.
- E. Determine vulnerabilities

Answer: BC

11. What trigger question would you use when assessing the benefit of a secure network access solution?

- A. Have you ever experienced business disruption from an Internet attack, such as viruses or worms?
- B. Do you want to provision your VPN, firewall, and IPS devices with a single management system?
- C. Do you think you have a thorough strategy for detecting and correlating network intrusions?
- D. What type of end users and applications need to access your network?

Answer: D

12. Which two of these describe how security contributes to profitability? (Choose two.)

- A. by not complying with government regulations
- B. by enabling businesses to gain the maximum advantage from advanced technologies
- C. by decreasing downtime and productivity losses
- D. by providing access to information based on need rather than location
- E. by providing the company an insurance policy

Answer: BC

13. How do you calculate risk quantitatively for SLE?

- A. single loss expectancy divided by the annualized rate of occurrence
- B. exposure factor multiplied by the asset value
- C. cost of recovery multiplied by the number of compromised servers
- D. average revenue per hour divided by the hourly server downtime

Answer: B

14. What are two outcomes of preparing for the business requirements workshop? (Choose two.)

- A. aligning the solution with customer business needs
- B. defining stakeholders
- C. discovering which requirements conflict with the solution
- D. defining detailed customer requirements

Answer: BD

15. What is the difference between Cisco Security Manager and Cisco Security MARS?

- A. Cisco Security Manager focuses on monitoring and analysis.
- B. Cisco Security MARS provides simplified policy administration.
- C. Cisco Security MARS focuses on rapid threat identification and mitigation.
- D. Cisco Security Manager can only manage small networks.

Answer: C
