

920-111 Other Nortel Certification

Nortel NCSS-VoIP Communication Server(CS)2100

Practice Exam: 920-111 Exams

Exam Number/Code: 920-111

Exam Name: NCSS-VoIP Communication Server(CS)2100

Questions and Answers: 82 Q&As

([Other Nortel Certification](#))

Exam : [920-111](#)

"NCSS-VoIP Communication Server(CS)2100", also known as 920-111 exam, is a Nortel certification. With the complete collection of questions and answers, TestInside has assembled to take you through 82 Q&As to your 920-111 Exam preparation. In the 920-111 exam resources, you will cover every field and category in Nortel Certification helping to ready you for your successful Nortel Certification.

Quality and Value for the 920-111 Exam TestInside Practice Exams for Nortel **Other Nortel Certification** Certification 920-111 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 920-111 Exam.

920-111 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Other Nortel Certification product experts, included the current newest 920-111 examination questions.

3. 100% Guarantee to Pass Your Other Nortel Certification exam and get your Other Nortel Certification Certification.

If you do not pass the Nortel Certification 920-111 exam (NCSS-VoIP Communication Server(CS)2100) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 920-111 Q&A ensure you pass the exam at your first try.

TestInside professional provide Other Nortel Certification 920-111 the newest Q&A, completely covers 920-111 test original topic. With our complete Other Nortel Certification resources, you will minimize your Other Nortel Certification cost and be ready to pass your 920-111 tests on Your First Try, 100% Money Back Guarantee included!

[Nortel 920-111](#) Test belongs to one of the Other Nortel Certification certified test, if needs to obtain the Other Nortel Certification certificate, you also need to participate in other related test, the details you may visit the [Other Nortel Certification](#) certified topic, in there, you will see all related Other Nortel Certification certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 920-111 exam

920-111 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

920-111 exam questions updated on regular basis

Same type as the certification exams, 920-111 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 920-111 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : Nortel 920-111

Title : NCSS-VoIP Communication Server(CS)2100

1. Nortel recommends an IP addressing scheme for Call Agent and other call processing nodes in the Communication Server LAN (CS-LAN). Given this information, which manner should you use to provision the nodes in a CS 2100 Compact Server solution?

- A. in a predetermined Class A address network
- B. in a private call processing subnet of the CS-LAN
- C. in the widely known IP address range of 192.168.0.x
- D. each node is provisioned within its own special subnet of the CS-LAN

Answer: B

2. A customer is planning to install a Greenfield CS 2100 Compact Server solution. What is the required hardware component for the Trunk Gateway Media Controller in this deployment?

- A. a SAM21 Shelf
- B. a Mediatrix 1124
- C. a 1104 Analog Station Gateway
- D. a Passport 7480 Packet Voice Gateway

Answer: D

3. A customer is planning to install a hybrid CS 2100 XA-Core Server solution. What is the required hardware component(s) for supporting the Interworking Spectrum Peripheral Module Internet Protocol (IW SPM-IP) in this deployment?

- A. a Motorola PowerPC series FX
- B. Gateway Controller circuit cards
- C. a Motorola MCPN Single Board Computer (SBC) with MultiMode Fiber connections to the Passport 8600 network
- D. a legacy-based, fault-tolerant peripheral with DS512 connection to the ENET and Gigabit Ethernet connections to the packet network

Answer: D

4. You need to reconfigure the IP addresses of both Call Agent cards in a CS 2100 Compact system. You have the following base-eight consecutive IP address range for the two Call Agents:

- 142.68.156.25
- 142.68.156.26
- 142.68.156.27
- 142.68.156.28
- 142.68.156.29
- 142.68.156.30
- 142.68.156.31
- 142.68.156.32

In the base-eight IP address range, which one must you assign as ACTIVEIRM?

- A. 142.68.156.25
- B. 142.68.156.26
- C. 142.68.156.31
- D. 142.68.156.32

Answer: D

5. A private LAN is established between two Call Agent cards and uses the 192.168.1.0 network in a CS 2100 Compact Server system. Which ports on the two Call Agent cards use this network?

- A. localptp and mateptp
- B. localport0 and mateport0
- C. localport1 and mateport1
- D. localblade and mateblade

Answer: A

6. A customer is planning to install a Greenfield CS 2100 Compact Server solution. What is the required hardware component for the Call Agent component in this deployment?

- A. a Mediatix 1124
- B. a STORM SAM-XTS server unit
- C. an AudioCodes Mediant Gateway
- D. a Single Board Computer (SBC) that resides in a SAM21 shelf

Answer: D

7. What do the items displayed on the SAM21 Shelf Controller Manager Network Element display represent?

- A. a SAM21 Shelf
- B. a CS 2100 XA-Core System
- C. a CS 2100 Compact System
- D. a SAM21 Shelf Controller Card

Answer: A

8. In the CS 2000 Management Tools, you need to access the Network Patch Manager (NPM) and issue critical commands. If the Graphical User Interface (GUI) is unavailable, what must you do?

- A. Contact your next level of support.
- B. Reset the associated hardware to restart the GUI.
- C. Contact Nortel support and have them connect remotely to issue the commands.
- D. Use the Command Line User Interface (CLUI) from the Operations, Administration and Maintenance (OAM) platform.

Answer: D

9. Which feature is applicable only for a CS 2100 Compact Server configuration?

- A. Call Agent
- B. HIOP Module
- C. SuperNode Size Enhanced (SNSE)
- D. Support for DS1 and DS3 Telephony Protocols

Answer: A

10. When you select a file system from the STORM Manager Storage Panel window, a Modify File System window appears. From this Modify window, how can you modify the size of a file system?

- A. You can increase or decrease the size as you see fit.
- B. You can modify the size only in increments of 100 MB.
- C. You can modify the size by selecting the slide-bar and moving it to the new value.
- D. You are allowed to increase the size of a file system; however, you are not allowed to decrease the size.

Answer: D

11. From the STORM Manager Storage Panel window, when should you execute removal of a file system?

- A. after regular working hours
- B. after testing file system integrity
- C. only at the direction of Nortel support personnel

D. when file systems can be safely removed at any time without effecting the operation

Answer: C

12. What is the Call Agent software delivery procedure in a CS 2100 Compact Server?

A. Both loads are transferred to the customer site using HTTP.

B. Product Computing Module Lode (PCL) is transferred via FTP while NCL is transferred via HTTP.

C. Both loads are transferred to the customer site using the SuperNode Data Manager (SDM) tape or FTP.

D. PCL is transferred directly on the Call Agent card via FTP while NCL is transferred to the customer site using SDM.

Answer: C

13. Which management system is used as an Application Launch Point to access the SAM21 Shelf Controller Manager?

A. Call Agent Management (CAM) System

B. CS 2100 Element Manager Web Server

C. Network Patch Management (NPM) System

D. Succession Element and Sub-element Management (SESM) System

Answer: D

14. In the CS 2000 Management Tools, you are about to apply a patch. If the SpApp check box is checked, what must you do before applying the patch?

A. Don't do anything. Apply the patch.

B. Uncheck the check box before continuing.

C. Display the Special Application instructions before continuing.

D. Check for the availability of Spare Application cards before continuing.

Answer: C

15. There are two tables in the call processing application that require datafill before the components in the LAN can communicate with the Call Agent. One is Table IPHOST, what is the other?

A. Table IPINV

B. Table NETINV

C. Table SERVRINV

D. Table IPNETWRK

Answer: D

16. What is the purpose of Peripheral Processor Virtual Machine (PPVM) protocol in a CS 2100 XA-Core Server configuration?

A. communication between XA-Core and Call Agent

B. communication between Universal Audio Server (UAS) and Audio Gateway Controller

C. communication between XA-Core and Interworking Spectrum Peripheral Module Internet Protocol (IW SPM-IP)

D. communication between Call Agent and Interworking Spectrum Peripheral Module Internet Protocol (IW SPM-IP)

Answer: C

17. When you replace a SAM 21 Shelf Controller the new shelf controller will auto-provision. However, what must you change manually using the SAM 21 Shelf Controller Manager?

A. the IP address of the physical Shelf Controller card

B. the directory path, relative to the SDM, where the software load is stored

C. the Physical Media Access Control (MAC) address of the Shelf Controller card

D. the IP address of the SDM that contains the Shelf Controller and application card software loads

Answer: C

18. The Gateway Controller (GWC) requires information so that it can communicate with Call Agent. When a GWC is added using the CS 2100 Management Tool, an IP address is entered in the Message Router IP field. What does this IP address belong to?

- A. the Local PTP IP address
- B. the Mate Port 0 IP address
- C. the Local Port 0 IP address
- D. the Call Agentactive IRM IP address

Answer: D

19. You need to access the Application Launch Point for the SAM21 Shelf Controller Manager. After you launch a web browser to the following link: http://<host>, what do you input for <host>?

- A. the SAM21 Network Element
- B. the IP address of the Mate Controller
- C. the IP address of the SAM21 Shelf Controller
- D. the name or IP address of the CS 2000 Management Tools Server

Answer: D

20. A customer is planning to install a hybrid CS 2100 XA-Core Server solution. What is the required hardware component that is used to provide a system bus for peer-to-peer messaging between the XA-Core and the SuperNode Data Manager in this deployment?

- A. a Mediatrix 1124
- B. a Message Switch
- C. a Passport 7480 Packet Voice Gateway
- D. a SAM21 shelf with a Message Controller (MC) blade

Answer: B
