

920-251 NCSS

Nortel nncss-alteon

Practice Exam: 920-251 Exams

Exam Number/Code: 920-251

Exam Name: nncss-alteon

Questions and Answers: 77 Q&As

([NCSS](#))

Exam : [920-251](#)

"nncss-alteon", also known as 920-251 exam, is a Nortel certification. With the complete collection of questions and answers, TestInside has assembled to take you through 77 Q&As to your 920-251 Exam preparation. In the 920-251 exam resources, you will cover every field and category in Nortel Certification helping to ready you for your successful Nortel Certification.

Quality and Value for the 920-251 Exam TestInside Practice Exams for Nortel **NCSS** Certification 920-251 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 920-251 Exam.

920-251 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the NCSS product experts, included the current newest 920-251 examination questions.

3. 100% Guarantee to Pass Your NCSS exam and get your NCSS Certification.

If you do not pass the Nortel Certification 920-251 exam (nncss-alteon) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 920-251 Q&A ensure you pass the exam at your first try.

TestInside professional provide NCSS 920-251 the newest Q&A, completely covers 920-251 test original topic. With our complete NCSS resources, you will minimize your NCSS cost and be ready to pass your 920-251 tests on Your First Try, 100% Money Back Guarantee included!

[Nortel 920-251](#) Test belongs to one of the NCSS certified test, if needs to obtain the NCSS certificate, you also need to participate in other related test, the details you may visit the [NCSS](#) certified topic, in there, you will see all related NCSS certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 920-251 exam

920-251 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

920-251 exam questions updated on regular basis

Same type as the certification exams, 920-251 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 920-251 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : Nortel 920-251

Title : Nncss-Alteon

1. Which two statements are true with regard to the Least Connections metric?
- A. New connections are assigned to the server with the fewest active connection
 - B. Weighting has no effect
 - C. Maximum connection option is supported
 - D. New connections are distributed in round-robin fashion

Answer: AC

2. Select two valid characteristics of content identifiers such as URLs.
- A. be of varying lengths
 - B. appear at unpredictable locations within a request
 - C. be interrupted by VLAN tagging
 - D. be terminated by VLAN tagging

Answer: AB

3. Which two can each port in use on the switch be configured to process?
- A. client requests
 - B. ARP requests
 - C. server processing
 - D. filter requests

Answer: AC

4. Which two metrics are supported in Intrusion Detection System load balancing?
- A. minmisses
 - B. leastconns
 - C. roundrobin
 - D. response

Answer: AC

5. IP address information is used for which two metrics?
- A. Bandwidth LB Metric
 - B. Minmisses
 - C. Hash
 - D. Response Time LB Metric

Answer: BC

6. The ISD-SSL: ? has been set up with a test certificate ? is working ? is correctly configured However, the web servers are not listening on the correct port. What will you see in your browser when you attempt to connect to the site?
- A. Nothing at all: it will time out with an error
 - B. HTTP 302 redirect to site specified on ISD-SSL
 - C. The browser asks if you accept the certificate, then times out
 - D. The browser-based interface for the ISD-SSL

Answer: C

7. Identify two that are Layer 4 CLI commands.

- A. /cfg/slb/cur
- B. /info/arp/dump
- C. /stats/slb/real <real-server-number>
- D. /stats/port/ <num> <ether/if/link>

Answer: AC

8. Which command changes the realserver port to 8080?

- A. /cfg/slb/virt <virt number> /service <service number>/ rport 8080
- B. /cfg/slb/real <real number>/service <service number>/rport 8080
- C. /cfg/slb/virt <virt number>/service <service number>/sport 8080
- D. /cfg/slb/group <group number>/service <service number>/rport 8080

Answer: A

9. What three things must you do to create a bandwidth management policy (allocate available bandwidth)?

- A. Receive a policy number
- B. Map IP addresses in a sufficient range
- C. Specify limits (reservation limit, soft limit, hard limit)
- D. Specify buffer limit

Answer: ACD

10. In what menu would you configure Server load balancing for SMTP traffic?

- A. /cfg/slb/virt <virt number>/service 25
- B. /cfg/slb/real <real number>/service 25
- C. /cfg/slb/group <server number> /service 25
- D. /cfg/slb/virt <group number> /service 25

Answer: A

11. Select three attributes that are benefits of Global Server Load Balancing (GSLB).

- A. It takes geography and network topology into account
- B. It supports all IP protocols
- C. It does not require a DNS configuration
- D. It has no latency during the client setup

Answer: ABD

12. Which two of the following are benefits of using an SSL offload device?

- A. Less load on server CPUs
- B. Cookie-based persistence can be used for SSL traffic
- C. Increased performance for http traffic
- D. Stronger maximum cipher strength

Answer: AB

13. Why does the switch provide persistency to load balance Wireless Application Protocol (WAP) traffic among available parallel servers?

- A. To allow non-voice data to pass between wireless devices and the Internet
- B. So that clients can always go to the same WAP gateway to perform WAP operation
- C. So that requests for information can be serviced by traditional Web servers
- D. To allow instant access to services

Answer: B

14. Which three commands would be useful when troubleshooting an issue with Web Cache Redirection (WCR)?

- A. /cfg/slb/cur

- B. /info/slb/dump
- C. /stats/slb/cur
- D. /info/slb/sess/dump

Answer: ABD

15. What could cause switches to improperly redirect traffic? Select two.

- A. IP forwarding is turned ON.
- B. Filtering is not enabled on the correct port.
- C. RTS is not enabled on the correct port.
- D. Packets are being rejected at the VIP.

Answer: BC
