Nortel Nortel Unified Communications Solutions

Practice Exam: 920-807 Exams

Exam Number/Code: 920-807

Exam Name: Nortel Unified Communications Solutions

Questions and Answers: 56 Q&As

([Other Nortel Certification](#))

Exam : [920-807](#)

"Nortel Unified Communications Solutions", also known as 920-807 exam, is a Nortel certification. With the complete collection of questions and answers, TestInside has assembled to take you through 56 Q&As to your 920-807 Exam preparation. In the 920-807 exam resources, you will cover every field and category in Nortel Certification helping to ready you for your successful Nortel Certification.

Quality and Value for the 920-807 Exam TestInside Practice Exams for Nortel **Other Nortel Certification** Certification 920-807 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 920-807 Exam.

920-807 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Other Nortel Certification product experts, included the current newest 920-807 examination questions.

3. 100% Guarantee to Pass Your Other Nortel Certification exam and get your Other Nortel Certification Certification.

If you do not pass the Nortel Certification 920-807 exam (Nortel Unified Communications Solutions) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 920-807 Q&A ensure you pass the exam at your first try.

TestInside professional provide Other Nortel Certification 920-807 the newest Q&A, completely covers 920-807 test original topic. With our complete Other Nortel Certification resources, you will minimize your Other Nortel Certification cost and be ready to pass your 920-807 tests on Your First Try, 100% Money Back Guarantee included!

[Nortel 920-807](#) Test belongs to one of the Other Nortel Certification certified test, if needs to obtain the Other Nortel Certification certificate, you also need to participate in other related test, the details you may visit the [Other Nortel Certification](#) certified topic, in there, you will see all related Other Nortel Certification certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 920-807 exam

920-807 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

920-807 exam questions updated on regular basis

Same type as the certification exams, 920-807 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 920-807 exam demo before you decide to buy it in Test-Inside.com.

Exam : Nortel 920-807

Title : Nortel Unified Communications Solutions

1. In some cases IP gateways are required in a pure IP PBX environment. Where in the network would the IP gateway be placed, if one were required?

- A. between the IP PBX and the carrier
- B. between the IP call server and its associated gateways
- C. between the IP PBX and any firewalls
- D. an IP gateway is not required in a pure IP PBX solution

Answer: A

2. A unified communications pilot project financial return on investment (ROI) model must have access to the organizations accurate sales, general, and administrative overhead expenses. Which decision criterion is critical for a Chief Financial Officer prior to signing-off on the preliminary financial ROI model?

- A. acceptance of key performance indicators with metrics
- B. determining the length of time that the UC proof-of-concept pilot project ROI must make
- C. identifying and validating all associated costs and that they are correctly entered into the ROI model
- D. planning on whether to use CAPEX or OPEX to pay for the UC proof-of-concept project

Answer: C

3. Which statement supports why a project team should conduct the requirements definition prior to the unified communications (UC) proof-of-concept project scope of work definition?

- A. It helps identify a short-list of vendor UC solutions that can be incorporated into the UC project.
- B. It slows down the UC proof-of-concept project from moving forward due to internal politics.
- C. It provides a detailed project plan defining project milestones and timelines.
- D. It identifies the scope of the UC project for labor estimating and project planning.

Answer: D

4. In an Office Communications Server (OCS) 2007 Enterprise Edition environment, which solution increases the availability of OCS 2007 services?

- A. deployment of a mediation server
- B. deployment of an archiving server
- C. deployment of edge servers
- D. deployment of a load balancing technology with the OCS 2007

Answer: D

5. Every mobile device that uses a wireless connection should employ point-to-point encryption between the endpoint mobile device and the enterprise network.

Which two methods will support point-to-point encryption? (Choose two.)

- A. IPSec VPN
- B. the cellphone service provider
- C. native SIP
- D. using WPA and WPA2 security

Answer: AD

6. When paired with a Communication Server 1000 PBX, the Microsoft Office Communicator client uses a feature called twinning or dual-forking.

What is twinning?

- A.a type of conference call
- B.two telephones sharing a single extension number
- C.telephone set cloning
- D.two users sharing an extension number

Answer: B

7. Which unified communications application, when implemented, can successfully solve the time value of money business challenge for bank and financial institutions attempting to provide customers with faster loan approvals?

- A.self-service websites enabled with IM chat
- B.real-time unified messaging with key loan personnel
- C.reservation-less audio conferencing
- D.real-time collaboration with key loan personnel

Answer: D

8. Installation of Office Communications Server (OCS) 2007 requires the extension of the active directory domain services schema so that creation and configuration of objects in the Active Directory can take place.Which two active directory objects are necessary for OCS 2007 to operate? (Choose two.)

- A.home telephone number
- B.session initiation protocol (SIP) URI
- C.telephone extension number
- D.fully qualified domain name

Answer: BC

9. Dual mode devices are devices that can utilize the carriers mobile data network or a local corporate Wi-Fi hotspot. Which reason is the primary reason for using such a device in a corporate environment?

- A.to enhance security
- B.to ease access to data
- C.to simplify the use of applications
- D.to reduce carrier usage and per minute charges

Answer: D

10. A company has an existing traditional TDM PBX and wishes to implement a unified communications project. At the present time it is more feasible to add a second VoIP-enabled PBX into the existing configuration to complete the project rather than replace the existing system.To make this system work as designed, the company must purchase and configure which other piece of hardware for this solution?

- A.Router
- B.IP gatewayC.New telephone sets
- D.This solution is not possible

Answer: B

11. When making a decision to deploy a multi-vendor unified communications enabled solution using SIP, what should the enterprise IT support teams do in preparation for the project?A.Fully test the solution for interoperability.

- B.Ask management to consider a single vendor.
- C.Look for open source tools to manage the solution.
- D.Request that all vendors adhere to strict common standards.

Answer: A

12. A company that is implementing unified communications (UC) has a mobile workforce that utilizes mobile end point devices such as PDA devices.Which security method will be needed to secure UC dialogue between the PDA devices?

- A.Authentication
- B.Encryption
- C.One time passwords
- D.RFID tagging and tracking

Answer: B

13. In the review and validation steps of a unified communications proof-of-concept scope of work document, which task should be completed first?

- A.Create upper management reporting templates.
- B.Measure key performance indicators (KPI) for reporting purposes.
- C.Create a monthly project assessment template to collect UC project data points.
- D.Calculate the financial return on investment (ROI) benchmarks.

Answer: C

14. When determining whether to proceed with a unified communications proof-of-concept project, which steps are decision points for a Chief Financial Officer? (Choose two.)

- A.creating an acceptable UC project budget
- B.defining who should be on the UC project team
- C.obtaining an acceptable preliminary financial ROI return
- D.developing a UC project plan that spans 6 to 9 months

Answer: AC

15. Given that several VoIP protocols have been used for communications between end-point devices, which protocol is versatile enough to act as the signaling protocol for mobile, fixed, and software-based end-point devices?

- A.MGCP
- B.SIP
- C.H.323
- D.SGCP

Answer: B
